My flat

Our family lives in a three-room flat on the third floor of a nine-storey house. We live in a good area where my school, a hospital and several supermarkets (1).

I am lucky to have a beautiful view in front of the window of my room. There are many trees around my house so in spring and in summer the place looks especially beautiful.

Our flat is very cosy. My mother is a designer and she decorated the flat really well. When we (2) the flat, we had an idea to decorate it in a high-tech style, but then we decided (3) a more traditional variant, and we have never regretted it yet.

The living room is (4) room in the flat – there we get together in the evenings, watch TV, discuss everyday matters and receive guests. My favourite thing in this room is (5) huge leather sofa, it is so comfortable that I like to spend hours reading or listening (6) music, or watching TV in it. We have many paintings from local artists, and we know some of them personally. Our guests really like to look at the paintings. I have a dream to become an artist in (7) future too.

I spend most of my time in my bedroom. This is my own room and I like it, even though sometimes I leave things lying around. I don't mean that there is a (8) there – I tidy up my room twice a week. But still it's my living space made (9) for my creative activities – I paint a lot, do some modelling from time to time and make different things that I invent myself.

But I'm not the only one who spends a lot of time in my bedroom. My cat has some rights for a part of it. He lives under the writing table in his cat house, and so we share the room.

My parents have a separate room with a spacious balcony, where we keep our bikes in winter.

We have meals in the kitchen. I like to spend my time there (10) Mother cook and talking with her. We can discuss many things. I sometimes even do my homework there.

I really like our flat and I feel that "my home is my castle".
